Points Earned	*													
Total Points Earned														
Individual / Flight Award w/ P														
% of Flt														
% of Flt >= 70 (T/F)														
Flt Avg														

Step 1: Identify all cadets in the flight and input phase, gender, and age information. Additionally, note in each section if any cadet has a waiver on file, restricting them from that portion of the CPFT.

Step 2: Use CAPP 52-18 Attachment 3 to check the first 4 categories and the first chart on p.16 in The President's Challenge Booklet to check the last category for each cadets score against the standards listed for that category and place a P for Passed or an F for Failed in the corresponding box. **Note:** If a cadet has a waiver for that section then the cadet Passed the Promotion Requirement and Failed every thing else in that category.

Step 3: Complete the Upper Section box by ensuring that there is a pass in at least two of the three above categories. If there isn't then the cadet failed.

Step 4: Complete the Lower Section box by ensuring that there is a pass in at least one of the two above categories. If there isn't then the cadet failed.

Step 5: In the Total Box a cadet passed the promotion requirement if they have a pass in both the upper and lower section, otherwise they failed. Moreover, a cadet earns points for their flight using the following system; enter points earned in the appropriate box.
 CPFT Not Taken: 0
 CPFT Failed: 1
 CPFT Passed: 2

Step 6: Cadets without restrictive waivers can compete for both **individual** and *Flight* awards through The President's Challenge Program. Participants must complete all events.
Participant = Completes all Events: 1
National / Bronze = Pass all events in 50th Percentile or above: 2
Silver = Pass all events in 60th Percentile or above: 3
Gold = Pass all events in 70th Percentile or above: 4
Presidential = Pass all events in the 85th Percentile or above: 5

Step 7: Sum points earned to find the flights total points earned, then divide that by the number of cadets in that flight to find the flights average points.

Step 8: Sum the individual awards.
